Expecting to be Completed in September 2024
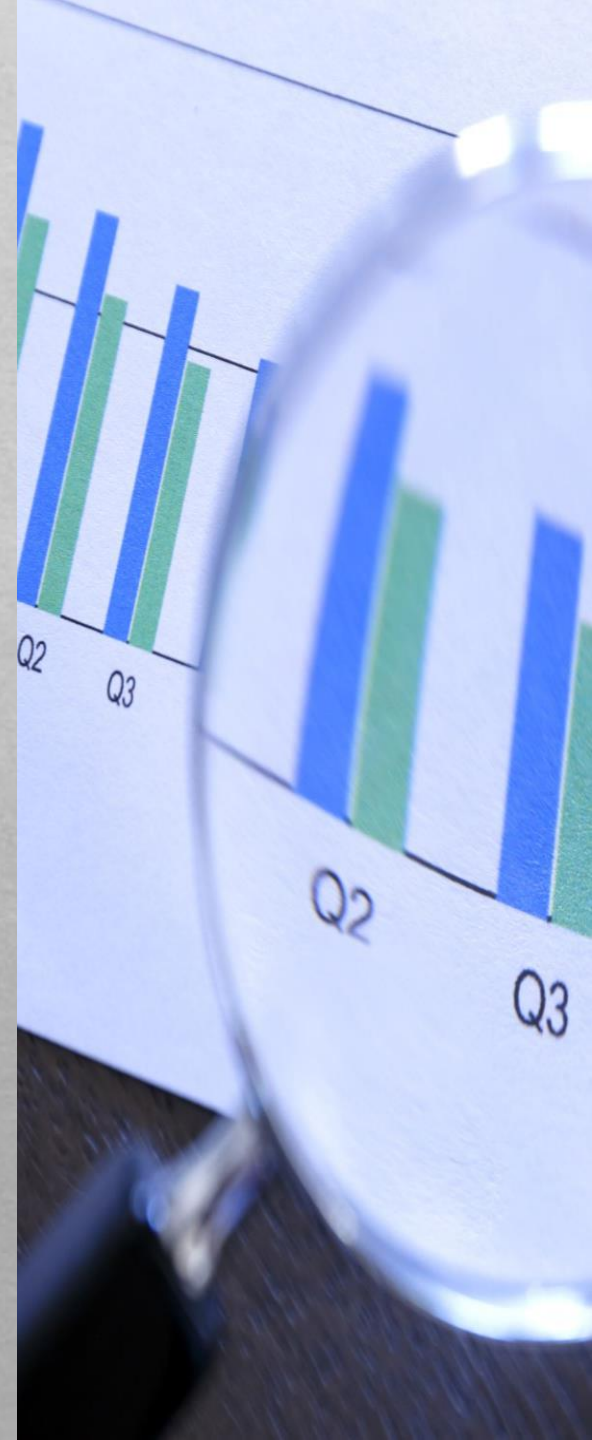

Analysis of Products from Top eBay Sellers

Raman K.

Brief Description

An important part of this project is to develop and demonstrate skills such as:

•Web scraping and data collection for creating a database
•Data analysis and database management
•Creating visualizations for understanding e-commerce dynamics

Raman K.

Working on this project should provide valuable insights about:

• 📈 **Market Trends**: Identify which products are trending and popular among top sellers.
• 🛒 **Pricing Strategies**: Analyze pricing strategies of successful sellers.
• ⭐ **Customer Preferences**: Examine product reviews and ratings to gauge customer satisfaction and preferences.
• 📦 **Product Performance**: Compare different product categories to see which perform better in terms of sales volume and customer feedback.
